The arithmetical rules for signs and rules used are not required.

5. *Mathematical results may be required to a certain extent as the data may themselves be mainly approximate. In such a case, to give the result to a greater degree of accuracy than is called for, or is justified by the data, will result in loss of marks. Candidates are required to understand such phrases as "three significant figures," "four-figure accuracy."*

(b) A sound appreciation of the following properties of plane figures will be essential, but proofs of these properties will not be asked for, and that, therefore, approximate results are equal.

 by applying results only when so demanded. No  
 great skill in the use of drawing instruments will be  
 expected, but clean and well-kept lines of work.

(b) Credit will be given for the clearness and  
 style of the language of the answers, deductions  
 will be made for accuracy or slowness and  
 accuracy for lack of accuracy and the correct use of

Time taken for the audit—24th August to 14th September 1934.

The office of Chairman, Port Trust, was held by Mr. W. T. Bryant, I.C.S., from 1st April to 13th August 1933, from 13th August to 13th September 1933 and from 24th September 1933 to 13th March 1934 and by Mr. J. B. L. Moore, I.C.S., from 13th to 27th March 1934. Mr. Subbaraj S. K. N. Chakrabarti, M.A., B.L., was Chairman, from 27th to 29th August and from 14th to 13th September 1934.

A statement showing receipts and payments during the year is appended, together with the opening and closing balances. The opening balance in the cash book is in agreement with the closing balance of the previous year. The closing balance is in agreement with the balance appearing in the statement of the Accountant-General for March 1934 final, after allowing for outstanding amounts, and unaccounted revenue as found at the close of the year.

The irregularities noticed during the year have been communicated to the Chairman, Port Trust, and Secretary, Port Trust, in separate statements which should be read as part of this annual report. Important irregularities are noted below.

#### PORT TRUST.

1. Recovery of President Fund subscriptions from passenger Mr. Gopalakrishna Niyadhi, joined Military premises, not in order. Rule 4 (a) of the President Fund Rules lays down that employees entitled to pension from Government should not contribute to the President Fund. But Mr. Gopalakrishna Niyadhi, a Military Officer, having a pension of Rs. 40 per month, was contributing to the President Fund. A similar rule in the President Fund Rules relating to the said Indian has been held to be inoperative as relating to both military and civil pensions. It is not clear if the rule made in exception to Service of Military pensions and extend to the President Fund.

2. Lost and proved receipt—It was stated that the duplicate and original receipt and the check collect note, and remit the balance to the Trust Office. This position is open to objection, as they have not been issued.

3. Drifter "Tuticorin"—Duplicate in the name of end—

(a) The drifter "Tuticorin" was working up to 2nd October 1933, and it was taken to Madras for dry docking on the 4th October 1933, and brought back on 16th November 1933. During this period there was a consumption of 50 tons of coal according to the log book. But, according to the estimate of cost of coal, as given on 25th Nov. 33, Rs. 12,700 (Havard), dated the 25th May 1933, the consumption should be 25-47 tons, as detailed below. The reason for the excess consumption of 24-53 tons of coal over the estimated quantity is not apparent.
